

## Cake Cutting Guide

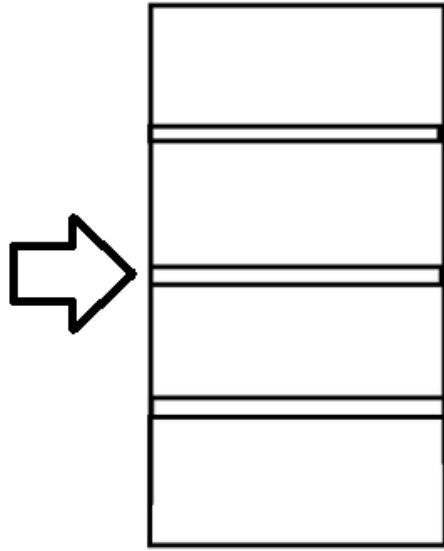

All cutting guides are based on a 1.5" by 2" (3cm x 5cm) cake slices, generally known as a dessert slice. Smaller cake slices will give more portions, the smallest would be 1" x 1" (2.5cm x 2.5cm) for wedding guests, also known as the coffee slice. The majority of customers prefer a larger dessert portion, if you do require details on portions for wedding cakes contact The Baking Butterfly who can help.

All cakes, unless specifically requested, are made of 4 layers of sponge and are approximately 6 to 7 inches high (15 to 18 cm), therefore each slice can be cut in half to create the 2 portions.

2 Layers of Cake = 1 slice

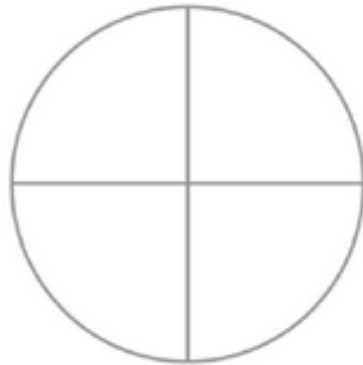

4 Layers of cake, cut at this point for 2 slices

4 inch (10cm) Round Cake

2 Layers - 4 portions

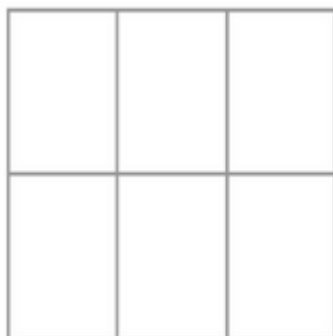

4 Layers - 8 portions

4 inch (10cm) Square Cake
